

ACADEMIC AMNESTY REQUEST FORM

I would like to request that the grade calculation for the following course(s) (up to 12 credits can be requested) be removed from my grade point average. I understand that the official grades will remain on my academic transcript, but the effect of those grades will be removed. I also understand that the repeated* course must be a passing grade and this grade will be the only grade that is used in my gpa calculations.

* The course numbers and content must be virtually the same, unless the Associate Dean can confirm that the course content is the same and only the title of the course or the course number has changed since the student took the course the first time. The Associate Dean of the college where the course is taught can make that exceptions and notify your Associate Dean if your college is different.
